

Iseära Homes

Ground-source heating and A energy class

Underfloor water heating- no radiators needed. Heat is provided by a ground-source heat pump, it doesn't get much greener than that.

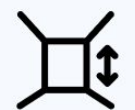

A home you can design yourself

With the Liven Home Designer program, you can choose the materials and furniture you like for your future home. An interior architect will support you every step of the way.

Furniture by Liven

You can also order custom-built furniture that matches the interior finishes directly from Liven.

High ceilings, tall windows and high doors on the ground floor

Ceiling height 3.0 m, window height 2.6 m, door height 2.3 m

Advantages of the garden district

A cohesive residential quarter with small apartment buildings and townhouses, surrounded by trees and shrubs, with playgrounds and recreational areas in between.

Community agreement

To ensure that life gets on the same wavelength as quickly as possible, we have outlined in [the Community Agreement](#) how life in Iseäras could take shape.

Parking spaces right at the door

Each townhouse owner can park two cars in front of the house.

Electric vehicle charging

You have the option to order a charging point for your own parking space.

Each home has its own mechanical ventilation system

Energy-efficient and equipped with heat recovery. The kitchen is fitted with a cooker hood with a carbon filter.

Remote-read meters for water and electricity

One less thing to worry about.
