

Iseära's apartment buildings

Few neighbours

Iseära's apartment buildings have only 3 floors and each building has only one entrance.

Parking spaces outside

The gate recognizes your car by the licence plate and opens automatically. You can also call it at any time.

Bicycle storage

There is a bicycle shed in the yard, where residents can safely store their favourite vehicle.

Bicycle storage

There is a bicycle shed in the yard, where residents can safely store their favourite vehicle.

Video phone

With this, you can see who is visiting you.

The benefits of a garden ton

A complete block with small apartment buildings and terraced houses, with trees and bushes between them, playgrounds and recreation areas.

High ceilings, tall windows and tall doors

2.8 meters, 2.4 meters and 2.3 meters.

Energy class A

It doesn't get any better.

Heating

Water floor heating or no radiators. A geothermal heat pump brings heat to the room - you can't go any greener. Our first phase homes have geothermal heating, new phase heating TBA.

Every home has its own forced ventilation

With heat recovery and economical features. A hood with a charcoal filter is designed for the kitchen.

Remotely read meters for water and electricity

One less worry

Storage spaces on the first floor

Heated storage spaces on the first floor, you can even go in slippers to get your Christmas ornaments.

A home that you can design yourself

With Liven's Home Designer application, you can choose the materials and furniture you like for your future home. An interior architect helps with advice.
